

THE CRAFT OF SEATING

## Amity Approved Textiles

Amity products feature curves and details that make fabric approvals challenging. All natural fibers perform well on these products. The best fabrics are wools or blends where a large percent of the content is wool.

Fabrics should have excellent stretch and recovery characteristics. Woven textiles must stretch in all directions. Heavily backed fabrics, double weave and inner woven fabrics will not work on this group of products. Most fabrics with backings will not be approved. Fabrics that react negatively to heat or steam should not be used. Leather is not currently approved for these products.

See below for approved textiles for the Amity collection:

<u>Vender Name</u>	<u>Pattern Name</u>	<u>Approved or Declined</u>	<u>-</u>	<u>Grade</u>
