

HYPATE LOUNGE TABLES & SEATING

DURABLE AND LONG-LASTING

Hypate offers a form that's anything but fragile. Designed with a sturdy frame and upholstery that's double stitched for extra strength, each piece is made to stand the test of time and use. No wonder it carries a lifetime warranty.

CHOICES UPON CHOICES

Find the look that fits you best. A choice of two back styles with horizontal or transitional stitching, two arm styles with upholstered or inset wood, and wood legs with a metal option all make for endless versatility.

Storage Lounge

A SECONDARY SURFACE

With the optional pivoting tablet arm, you can set down your computer, take notes, or rest your coffee mug within arm's reach. Tablets can be positioned on the right or left arm of a chair, swivel 360 degrees, and are available as an oval or circle.

FOUR OF A KIND

Hypate comes in four forms: a club chair, love-seat, sofa, and storage lounge. Widths range from 35" to 72," while a uniform height unites the group with a consistent appearance.

A COMFORTABLE
CROWD PLEASER

Welcome to style and simplicity that everyone seems to love. No matter the setting—whether reception area, lounge space, waiting room or executive office—Hypate lounge furniture offers unmistakable comfort and support.

Boasting graceful curves and distinct shaping, Hypate offers a generous area to sit down, stretch out, share ideas, or simply relax. Alone or in a group, the collection offers a broad yet refined sense of proportion—one that people are instantly drawn to.

ABOUT THE DESIGNER
JOHN STAFFORD &
CHRIS CARTER

For over a decade, John Stafford and Chris Carter have created inspiring designs for all categories of the contract market. With an instinct for creating furniture that delights and invites, the team's designs can be found in corporate, healthcare, college/university, retail store planning and hospitality markets worldwide.
