PICNIC

PICNIC COLLABORATIVE SETTING

EASY IN. EASY OUT.

Traditional picnic tables are great for dining and socializing, but getting in and out can be a challenge. Picnic solves this problem with comfortable, soft benches. Accompanied by small poufs, the benches glide in and out for easy access and nest under the table when not in use.

SETTING THE TABLE

With Picnic, you can set the table in a variety of ways. Choose a round or rectilinear shape. Add style with a multitude of top finishes. Integrate power with USB capabilities. If you have an appetite for options, Picnic's the collection for you.

BRING THE GANG TOGETHER

Want to make sure no one's left out? The rectilinear table comes in standard table height and stool heights and can be connected with a shared leg to create infinite lengths.

PLAYFUL.
PRODUCTIVE.
PICNIC.

Picnic is a collection of collaborative tables and soft seating benches inspired by the classic picnic table. Designed to work together or independently, the collection brings a casual charm to interior environments and makes for a setting that's playful and productive at the same time.

For working, studying, playing, meeting, or dining, nothing brings people together quite like Picnic.

ABOUT THE DESIGNER
5D STUDIO

5D Studio comprises a multidisciplinary team that's passionate about all aspects of design. Located in Venice, California, deep in the heart of Silicon Beach, designers from 5D Studio would walk to lunch and see people working, socializing, or eating in traditional picnic table vignettes. That, added to the picnic table's classic form and playful vibe, was all the inspiration the designers needed for the Picnic collection.
