

THE CRAFT OF SEATING

POWWOW

POWWOW LOUNGE TABLES & SEATING

SMART ON MULTIPLE LEVELS

Who ever said collaboration had to look a certain way? For POWWOW, we took cues from people's inherent desire to lean over the back of high-back seating. Our response is a hangout ledge that allows groups to quickly expand and contract while also allowing for alternative postures.

DEAL WITH CHANGE

POWWOW helps “future-proof” spaces with a collection of elements that can be arranged and rearranged to fit the needs of its users.

TECH IT OUT

With modular seating and table components, POWWOW enables users to quickly and seamlessly share digital information, supporting a rich exchange of ideas.

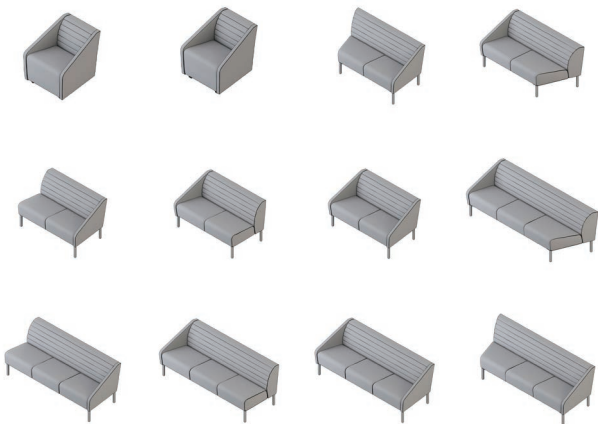

MADE FOR MANY PEOPLE AND MANY PLACES

POWWOW was made for the places people come together—conventional waiting spaces to corporate working environments, lobbies, higher education, libraries, and more.

A GREATER WAY TO GATHER

In the past, collaboration was structured, planned, and reserved for formal settings. Today, collaboration is spontaneous, impromptu, and requires a solution that supports a new dynamic.

As a welcoming, freestanding, "arena-like" setting, POWWOW fits in open-plan spaces to define a space all its own. With a design that's light in scale yet incredibly durable, POWWOW integrates seating, tables, and technology to create rich, social experiences.

Whether it's a fluid interaction, spontaneous conversation, or planned gathering, POWWOW's ready for it all.

POWWOW LOUNGE TABLES & SEATING

ABOUT THE DESIGNER JESS SOREL

Driven by an intense curiosity about the context in which objects are made and used, Jess Sorel's primary focus is on understanding and interpreting the world around him.

A step away from more obvious collaboration solutions, POWWOW is Sorel's expression of design, ingenuity, and understanding of how people come together. Truly, POWWOW is an achievement in scalability, functionality, and lightness of scale.
